danielandrews@berkeley.edu | 310-424-8136 | <https://github.com/danielandrews43> | <https://dandrews.io/>

EDUCATION

University of California, Berkeley

Bachelor of Science Electrical Engineering & Computer Science, College of Engineering

Relevant Coursework: Structure and Interpretation of Computer Programs, Data Structures, Discrete Mathematics & Probability Theory, Algorithms, Data Science Techniques, Artificial Intelligence, Computer Security, Computer Architecture, Operating Systems

Cumulative GPA: 3.7

Expected: May 2020

Alexander Hamilton High School

Achievements: Valedictorian of class of over 700 students, passed nineteen AP tests taken, received a 35 on ACT

Cumulative GPA: 4.8

August 2012 - June 2016

PROFESSIONAL EXPERIENCE

Slack

Software Engineering Intern

- Developed whitelist security feature for Slack iOS app in Swift to prevent unsafe workspaces from being added to the enterprise mobile app
- Created a public Slack Bot to define acronyms and words after seeing the difficulty of learning the new vocabulary during onboarding
- Selected as a Kleiner Perkins Engineering Fellow

San Francisco, CA

June 2019 – August 2019

KYTE

Software Engineering Intern

- Built and launched the iOS app for KYTE's rental car delivery service from scratch in under a month using React Native and Redux
- Worked closely with users to iterate on design and interaction to improve user experience, find new features to add, and remove pain points

San Francisco, CA

March 2019 – June 2019

PayPal

Software Engineering Intern

- Designed and developed an onboarding experience for PayPal's unified SDK for live code preview, which doubled as an E2E test tool
- Recreated part of the frontend checkout experience in ReactJS, Redux, and NodeJS, dramatically increasing performance of key flows

San Jose, CA

May 2018 – August 2018

QuartzMasters

Contractor

- Sourced contract and led team of developers and designers to build a cross platform mobile app for an international tile company
- Ensured deliverables and timelines were met by developing the iOS app and doing product and project management for the apps' development

Berkeley, CA

November 2017 – April 2018

LEADERSHIP & EXTRACURRICULAR

Mobile Developers at Berkeley

VP of Development

- Coordinated ideations, design process, execution strategy and viability of product for members to maximize impact over course of semester
- Created four apps in five weeks, including a name guessing trivia game, a Pokedex, an event planning social network app, and a weather app
- Manage a budget of \$40,000 per year to plan membership socials, events, and retreats, as well as purchasing branded apparel and merchandise

Berkeley, CA

January 2017 – Present

Money 20/20

Prize Winner

- Created FacePay, a Point-of-Service kiosk for handling transactions, menus, and recommendations in restaurants using facial recognition
- Won award from Visa for showcasing our end-to-end iPad checkout experience and complementary web administrative portal

Las Vegas, NV

October 2017

Cal Hacks 4.0

Prize Winner

- Created Omada, a group investment platform, along with three other participants in 36 hours and presented to a panel of judges and peers
- Won the BlackRock API award for best use of BlackRock's financial data hackathon API and selected as top 10 hack by Microsoft

Berkeley, CA

October 2017

PROJECTS

"Hello, World!"

Author

- Wrote "Hello, World!" a coffee table book about the most popular programming languages which can be found at the website <https://helloworldbook.io>
- Successfully funded nearly \$6,000 from 92 backers on Kickstarter to help fund the printing of the book and shipped out all rewards on time

Los Angeles, CA

March 2018 – Present

Carline

Founder / CEO

- Carline is the simplest sign in, sign out, & carline management tool for preschools. Carline manages authorized guardians and classrooms
- Created React Native mobile apps for iOS and Android, a React admin dashboard, and NodeJS / Firebase backend and beta tested successfully

Berkeley, CA

August 2019 – March 2020

YearBook

Founder / CEO

- YearBook is a real time yearbook for preschools. It facilitates parent-teacher interaction and media sharing within classrooms and schools
- Led feature planning and development for the business, and took through FreeVentures and pitched to Sequoia, KPCB, GC, CRV, and others

Berkeley, CA

March 2017 – April 2018

SKILLS & INTERESTS

Skills: Web (ReactJS, Redux, JavaScript, HTML, CSS), Mobile (React Native, Swift), Backend (Python, Django, Flask, NodeJS, SQL, Firebase)

Affiliations: Alpha Epsilon Pi, Mobile Developers of Berkeley, The House, FreeVentures, Build The Future, Crypto for Charity, KPCB Fellows
